PROFESSIONAL SUMMARY

Award-winning digital design student (Student of the Year 2025, Barking & Dagenham College) with hands-on experience across software development, web design, and AI-powered app development. Placed 2nd at the WorldSkills Software Development Competition and currently freelancing while completing a T Level in Digital Design. Looking to bring a strong technical foundation and a passion for ethical, inclusive technology to a forward-thinking team.

EXPERIENCE

Freelance Software Developer

Self-Employed, Greater London Late 2025 – Present

- Independently source and deliver software development projects for clients, managing the full lifecycle from requirements gathering to final delivery.
- Build and maintain web applications and digital solutions tailored to each client's needs, from initial brief through to deployment.
- Manage client relationships, deadlines, and project scope independently, demonstrating professional accountability and business acumen.

Graphic Designer & Web Designer

JanztechnoIT, London Oct 2025 – Dec 2025

- Developed design concepts for multiple clients, improving brand visibility and audience engagement across digital channels.
- Managed concurrent design projects, balancing priorities to consistently deliver high-quality work on deadline.
- Translated functional requirements into polished visual materials including digital assets and marketing collateral.

IT Intern

JanzTechnoIT, Greater London Jul 2025 – Sep 2025

- Designed, updated, and maintained the academy's website, ensuring responsiveness, accessibility, and a strong visual identity.
- Managed Instagram and Facebook platforms, producing scheduled promotional content that boosted audience engagement.
- Created graphic design materials; posters, flyers, and digital assets using Canva and Figma to support branding campaigns.
- Taught basic digital skills to primary and secondary students, strengthening communication and leadership abilities.
- Analysed user feedback and implemented improvements to the academy's online services.

Project Intern – Mobile App Development

Digital Skills Consulting Ltd., Greater London Sep 2024 – Mar 2025

- Co-developed a safety focused mobile app for women and girls, integrating AI-powered features: therapy support, emergency alerts, and peer-to-peer communication.
- Conducted research into mental health, safety protocols, and ethical tech practices to shape app design and ensure compliance.
- Presented the completed app to a judging panel, reaching the competition final; communicating technical features, social value, and scalability.
- Applied agile methodology throughout the project lifecycle, building project management and collaborative problem solving skills.

EDUCATION

T Level: Digital Design, Production & Development

Barking & Dagenham College Jan 2024 – Jan 2026

- Studying software development, cybersecurity principles, UI/UX design, and agile project management.
- Applied learning through real world internship placements and competitive projects.
